

# Workshop on Foldscope

**Workshop on the use of  
Foldscope: Towards  
democratising science by  
providing “microscope for  
everyone”**

Thursday, July 12, 2018  
10 AM-12 PM

For registration kindly mail your  
Name, Department, Highest  
qualification, Area of interest,  
contact details(Address, Mobile  
no.)  
to [nitinbiomedical@gmail.com](mailto:nitinbiomedical@gmail.com)  
or directly contact to  
8413070025

till 10 July 2018

## **Venue:**

Department of Biomedical  
Engineering, North Eastern Hill  
University, Shillong-793022,  
Meghalaya

## **Invited Expert:-**

**Dr. Vishnu Agarwal,**  
Associate Professor  
Department of Biotechnology,  
NIT Allahabad, India

## **Organizer :-**

**Nitin Sahai,**  
Assistant Professor  
Department of Biomedical  
Engineering, NEHU, Shillong,  
India

Foldscope is the ultra  
affordable, paper microscope  
that you assemble  
yourself. Invented a few years  
ago by Manu Prakash and Jim  
Cybulski from Stanford  
University. To be extremely  
portable, durable, and to give  
optical quality similar to  
conventional research  
microscopes (magnification of  
140X and 2 micron resolution),  
Foldscope brings hands-on  
microscopy to new places!  
This small workshop cum  
demonstration of Foldscope to  
you and your group/students  
which shall facilitate on site  
microscopy anywhere even  
outside the laboratory

All are welcome!
