

THE WORKSHOP WILL COVER THE FOLLOWING NOTIONS:

- The workshop will give participants an overview of the basics of R and RStudio.
- R is a simple programming environment that enables the effective handling of data, while providing excellent graphical support.
- RStudio is a tool that provides a user-friendly environment for working with R.

KEY FEATURES OF THE WORKSHOP

- Researchers who are in an advanced stage of their research can bring their own data set (as per their requirements) and learn the hands-on analyses through practice sessions.
- Researchers who are freshers can understand about the environment for working with R
