What do we need:

- 1. Data/internet connection,
- 2. Laptop/Desktop PC/Smartphone,
- 3. A Gmail account to join the online classes,
- 4. Google Classroom a site where online classes can be accessed, and
- 5. Google classroom app (to be used with smartphones)

A smartphone offers a few added advantages like - portability, take a photo of an answer/assignment in addition to the text write-up, and/or attach a video recording etc.

- We, through these pictorial slides, are trying to explore the features of Google Classroom (GC) using a smartphone. This can be further extended by ourselves once we acquire the basic knowledge of GC.
- O One can follow the subsequent slides or go over the video tutorials given in the reference section for Google Classroom *as per convenience*.
- P Please note that there are more information on Classroom help from Google and video tutorials available on YouTube on how to use Google Classroom which a student can refer to anytime, anywhere.
- T This tutorial covers ► Installation of Google Classroom, ► Set up an account for a Classroom, ► Joining a Classroom, ► See class information, and ► Submission of an assignment.
